Summary

Final-year B.Tech CSE student with hands-on experience in cybersecurity, AI, and penetration testing. Skilled in building secure systems, VAPT, ethical hacking, and AI-driven threat detection. Certified by IBM, ISRO, and NIT Rourkela, with research exposure in Zero Trust, deepfake detection, and secure authentication.

Certifications

IBM – Penetration Testing, Threat Hunting & Cryptography (2024)
ISRO – Geo-Data Sharing & Cybersecurity (2025)
NIT Rourkela – Deep Learning, Cryptography, Data Science (2025)
Microsoft & Google – Linux, SQL, Software Development
HackerRank – Python (Basic), SQL (Basic), Problem Solving (Intermediate)

Experience

Cybersecurity Intern – C-DAC Noida | Oct–Dec 2024

- Performed VAPT, cybersecurity audits, and DDoS resilience testing.
- Built AI-powered intrusion detection using Linux & Python.
- Worked with Metasploit, SIEM tools, OWASP exploitation.

AI & Cybersecurity Intern – NIT Rourkela | Jun–Jul 2025

- Developed biometric identity system with secure key exchange.
- Created EEG-based deep learning models (80%+ accuracy).
- Researched Zero Trust Architecture & adversarial deepfake defenses.

Projects

- **VaultKeeper**: AES-256 password manager with master-key verification.
- **VulnScan**: OWASP Top 10 scanner with CVE dashboard.
- **NetDefend**: Real-time penetration testing & network defense alerts.
- **Deepfake Generator**: Real-time face animation using adversarial learning.
- **CamCo (NIT)**: Camera-controllable 3D video generation with Plücker coords.
- **3D Portrait Editor (NIT)**: Real-time 3D-aware editing with prompt control.
- **Deepfake Detection (NIT)**: Detection pipelines & adversarial defenses.
- **Latent Flow Diffusion (NIT)**: Video generation using diffusion + transformers.
- **Signal Analysis Toolkit**: EEG & speech signal analysis with FFT, MFCC, CWT.

Core Competencies

Cybersecurity: Auditing, Risk & GRC, ITGC, VAPT, Secure SDLC, OWASP Top 10, Cryptography, Post-quantum Security, Linux (Kali/Ubuntu), Cloud Security (AWS), SIEM, Incident Response.

AI / ML: Deep Learning, Threat Detection, Adversarial AI, Computer Vision (OpenCV, PyTorch, TensorFlow), Intrusion/Deepfake Detection, Signal Processing (FFT, MFCC, CWT).

Technical Skills

Python (NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, PyTorch), C, C++, SQL, Bash, Java (Basics), HTML/CSS/JS, Metasploit, Burp Suite, Wireshark, nmap, sqlmap.

Education

B.Tech – Computer Science & Engineering, Trident Academy of Technology (2022–2026)

Class XII (PCM + CS), Delhi Public School

Class X, St. Xavier's High School

Leadership & Clubs

Headboy – CyberSecurity Club (2023–Present): Led capture-the-flag events & peer mentoring.

Member – Hackathon Club (2022–Present): Active in full-stack & cybersecurity hackathons.
